

## Termékjellemzők / Specifications

- ▶ Provide easy and faultless assembling
- ▶ Different assembling alternatives with versatile usage opportunities by a few pieces.
- ▶ Sash and frame can be fitted separately.  
Holes of the T&T Stay Arm Hinges and Stay Arm Bearing can be drilled by same jig.
- ▶ Systems parts are fixed in centered position to easy assembling.
- ▶ Stay arm can be used both for right and left hand opening by adjusting Stay Arm Hinge.
- ▶ It has superior corrosion protection with alkali zinc coating.
- ▶ Sash lifter on the Bottom Extension piece removes the problems caused by hang down of the window sash.
- ▶ Prevents the faulty usage in the tilt opening position by the standard system is set up on the Stay Arm.
- ▶ Mechanism on the Stay Arm reaches the clutching before 25 mm, during the sash is changed from tilt opening position to closed position.
- ▶ Faulty usage which can be added on the T&T Gear according to customer's demand, prevents faulty usage.
- ▶  $\pm 0,8$  mm pressure of the gasket can be adjusted by Eccentric Bolts and screws on the Bottom Extension Piece, Stay Arm, Drill in Corner Hinges.
- ▶ Horizontal position of the sash can be adjusted by screws on the Stay Arm and Corner Bearing.
- ▶ Vertical position of the sash can be adjusted by screw on the Drill in Corner Hinges.
- ▶ Security system parts can be used if the high security is wanted to theft.

MAX.	Width of the sash :1600 mm Height of the sash :2400 mm	
MIN.	Width of the sash : 286mm When the narrow side of the Small Transmission is used horizontal.  Height of the sash : 480mm When the narrow side of the Small Transmission is used vertical.	
	Width of the sash : 395mm When the narrow side of the Small Transmission is used vertical.  Height of the sash : 370mm When the narrow side of the Small Transmission is used vertical.	

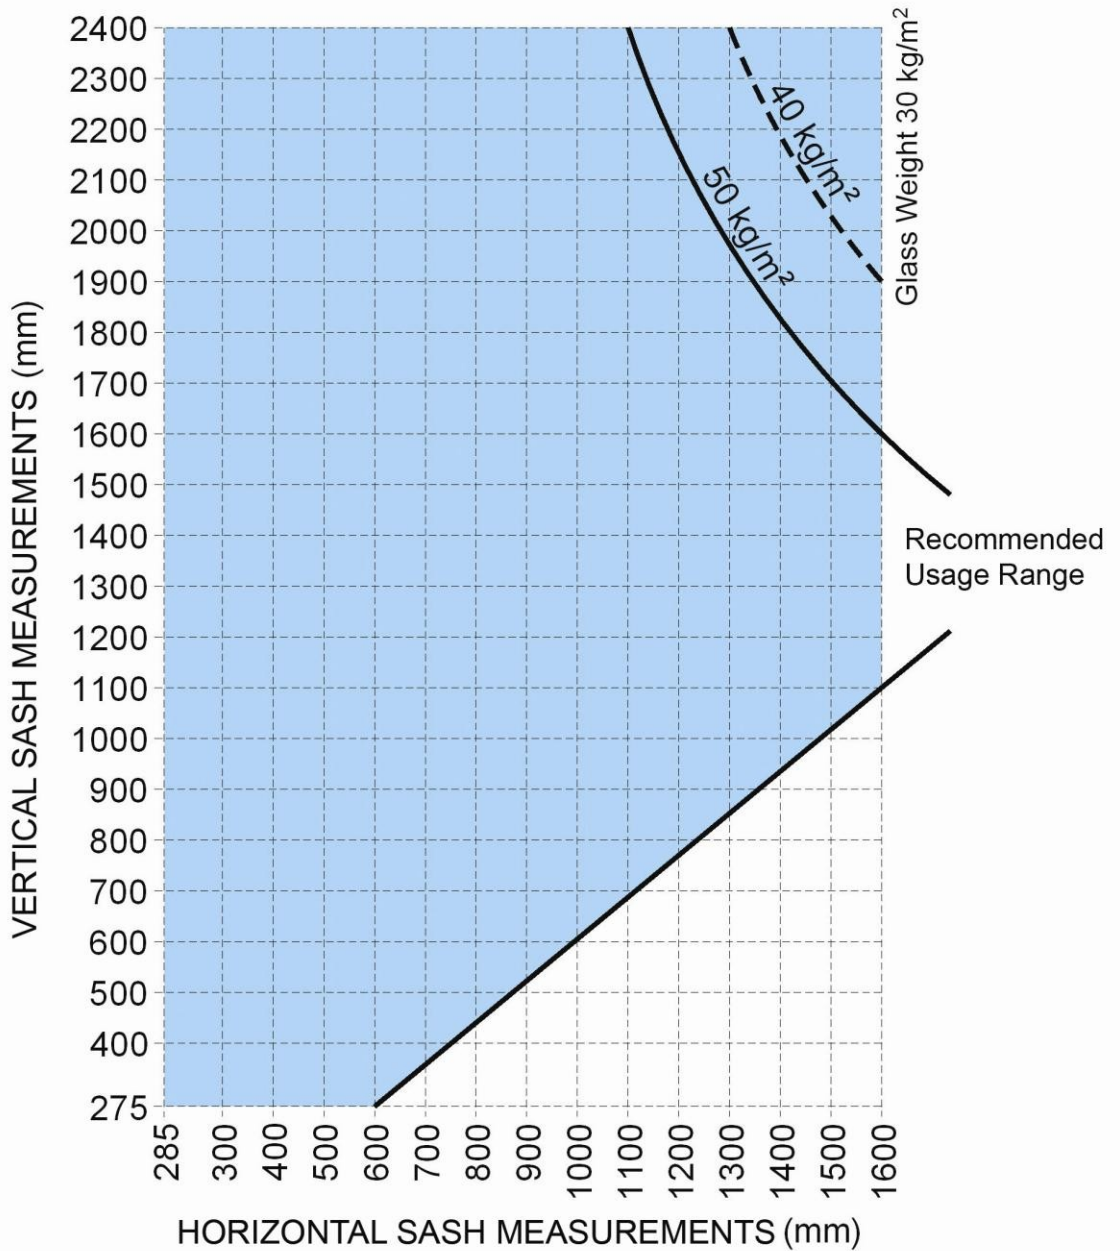

**Attention! Measurements of the Sash Width and Sash Height was determined from espagnolette's canal.**

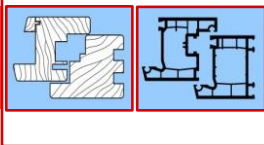

## Megengedett ablakszárny méretek

Max. Measurements of the Sash

Gear Systems with Variable Handle Height

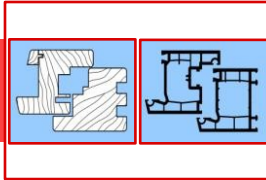

- ▶ Maximum sash weight must be 130 kg.
- ▶ Weigh of the glass is accepted 2,5 kg/m<sup>2</sup> for 1mm thickness.
- ▶ The measurements above may vary depending on the profile type.

## Szerelési útmutató

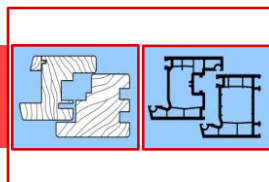

### Fitting Instructions

## A kilincs szerelésének előkészítése Preparing The Handle Holes

## Színskála Colour Scale

Színkód	Megnevezés (HU)	Product name (GB)
1	Ezüst	Silver
2	Sárga (EV3/Arany/Réz)	Yellow (EV3/Gold/Brass)
3	Ral 9016 Fehér	Ral 9016 White
4	Ral 8019 Sötét barna	Ral 8019 Dark Brown
5	Ral 8017 Barna	Ral 8017 Brown
6	Ral 8003 Világos barna	Ral 8003 Light Brown
7	Ral 1015 Bézs	Ral 1015 Beige
8	Ral 8022 Fekete	Ral 8022 Black
C	Egyedi szín	Special colours

### Magyarázat:

Néhány termék esetén a termékkód utolsó számjegye a színt jelöli.

Ha a termékkód utolsó számjegye (\*) szimbólumot tartalmaz, akkor ki kell választani a fenti táblázatból a kívánt színkódot, és azt kell behelyettesíteni A (\*) szimbólum helyére.

Példa: Ollócsapágó takaró: 18920000\*

A kívánt szín a fehér (Ral 9016).

A 3-as színkódot kell behelyettesíteni a (\*) helyére.

Ollócsapágó takaró (fehér színben): 189200003

r

### Explanation:

The last digit of some product code is the colour code.

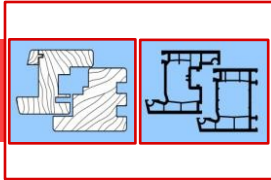

If you see (\*) sign at the last digit of product code, you must choose colour on the colour scale, and write the colour code instead of the (\*) sign.

Example: Stay Arm Bearing Cover :18920000\*

Preferred colour is white (Ral 9016) on the colour scale.

Colour code 3 is written instead of the (\*).

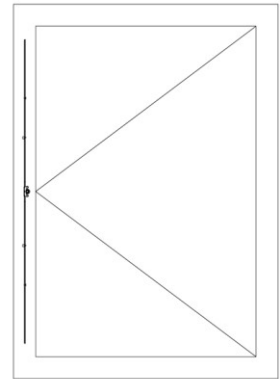

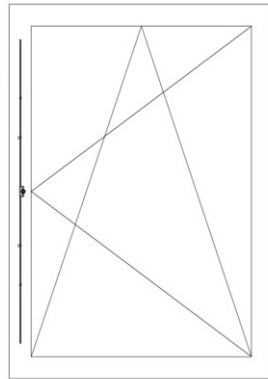

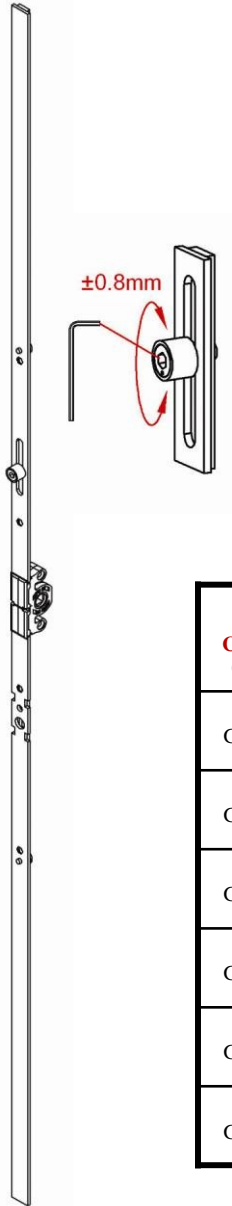

Stay Arm Bearing Cover (White Ral 9016): 189200003
